Elden Ring

Interview: THE NEW FANTASY ACTION RPG. "Well... it's a fantasy action RPG. That's the genre I play most, right?" I've said it before on the other games released by Crescent Moon Games. And now I've decided to say it once more. Since Elden Ring is a fantasy action game where your character fights enemies with their own skills and power, it may seem like a game that's entirely different from Crescent Moon's previous games, but to not only those who are unfamiliar with Crescent Moon Games, but also those who are familiar with Crescent Moon Games. Elden Ring is a new experience for those who are familiar with Crescent Moon's previous games. When a game that's a little bit different from the Crescent Moon Games' style appears, many people feel hesitant to get it. What's more, the genre that Crescent Moon Games play is entirely different from other genres such as role playing games (RPG) and strategy games (SG). However, as a reviewer who has been playing an actual RPG (RPG) for two hours, I can say that the difference between the Crescent Moon Games' style and others is not so drastic. What Crescent Moon Games's style is best at is that it's easy to understand. I didn't have any trouble when I played the game for two hours.

However, I've been playing an action RPG (RPG) before, and you can't say that the difference is not huge. One of the biggest differences is that Elden Ring allows you to play the game in RPG fashion. If you're not familiar with RPG, you can freely play the game with the flow of RPG games, but you can't say the same for other genres. "How different is the genre from Crescent Moon's previous games?" The gameplay of Elden Ring may seem entirely different from previous Crescent Moon Games, but the equipment and the flow of the game are similar to the first Crescent Moon Games that released in the 00's. How about the world and dungeon design? Elden Ring has more variety than its predecessor, but the world and the dungeon design are similar to Crescent Moon's previous games. In the world of Elden Ring, you're free to enjoy the environment with variety of situations bff6bb2d33
