A Familiar Fairytale is a graphic novel game. The story will unfold through the eyes of an emerging young girl, as she takes on the role of a young adult prodigy, a secret heroine of the 21st century. This will be accomplished through reading of the graphic novel, meaning that text will be displayed in an attractive, easily readable format. The goal of this game is to provide players with the experience of reading through dyslexic eyes; in order to achieve this end, the game will be a text adventure, without the use of graphics or graphic novel-style reading, instead, the story will be communicated in textual content, while the graphical content will be for players to read through a graphical display. A Familiar Fairytale will use dynamic styles in order to give each of the comics a unique appearance and feel, and may also appear in a variety of translations as each author has a different voice. The writing styles of each author are also integrated into the story to add nuance, atmosphere and tone to the game. About

The Game A Familiar Fairytale is an episodic adventure game that will feature four discrete comics, plus a fifth for the final chapter. Each chapter will be linked in order, but players will not need to read the entire story in order for the game to be completed. A Familiar Fairytale is a graphic novel, meaning that each comic is individually designed and formatted and intended to be read like a graphic novel, without the use of graphs or other art. In order to present these comics in a visually appealing format and deliver the necessary narrative elements, each chapter will be presented in a unique interface, where the reader's view of the comic will be presented through a computer-generated 3D space, using a unique perspective. In doing so, the writer will utilize several different visual styles to communicate the characters and setting and present the action within the book. Each chapter will be episodic, with the first two chapters taking place prior to the beginning of the story, and then the first two chapters being the beginning of the story, with an interactive ending in which the player will be given a few choices at the end of the first chapter. The second chapter will only be accessible after the completion of the first chapter. The third and fourth chapters will be the remainder of the story, which will then be the ending of the chapter series. About The Game The Game Art Direction The game will have a

graphical style that will be attractive and easily readable, which will be influenced by the authors of the

Eternalia is a continent that is divided into 3 zones: The Green Woods, The Ocean and The Mountain. From the beginning the continent was ruled by the great goddess of life and death, Melfina, who commanded the Guilds to protect the people of this land and to pursue the Evil and the Evil they had created. A dark power known as the Necromancer threatened to create an army of the Dead and entered the Great City of the Guilds when Melfina was unavailable. The land was conquered and enslaved the great city was burned. The Necromancer took over the city and proclaimed himself the new ruler. A pillar of fire that lit up the dark skies told the history of the gods that once lived in the land of Eternalia. The first time the undead have gone live and they acquired the power of the gods, the Necromancer returned. In the land of Eternalia you will start with a Dark Companion of the Necromancer who will join you on your quest. As the Necromancer plans on gaining power, will you join the righteous side or the side of the Dying Gods? The new player have turn of the Rock, which is just the wrong for a game like this, i think. All the current player are not forcing the new player to play to their will. ChessBoard game: Ask me for more details. Last correction to the game. Just I must make some improvements and it is hard to make changes in this game. Page 1: Earth is too small for me My brother was the youngest of us, and I saw him play with Lego for the first time. Then he was 10 years old. Playing Lego in front of the TV was something very special in my brother's life. After that he played again, but he created his own mini creations. I watched him play with miniature Cars, a miniature bulldozer, a miniature space rover, a miniature light cycles, a miniature fishermen, a miniature bulldozer... and a lot of other nice toys. He was a born engineer, he made his own creations. I realised that this was not just game, it was a power of creation of my brother. I was impressed. And I watched him. In the 70', He has been a professional car driver. Last December he drove from my hometown to another town, and I was born. My brother is now 38. A man, a car driver. With his own creations he could build his own city. In my town there is a lake. We can use it for sport and for leisure. But there is a problem; the sand from the beach has filled the lake. Is there any other way to leave the lake in use? No, there is no other way. I found the idea for this game. I remembered the last game that he played in our living room, I watched and admired what he was doing. Then I thought about the sand in the lake, that it is not such a difficult problem. I was right. One day I came to my brother's bed, he was sleeping. I was in my room next to his, and I thought about the sand in the lake. What to do? Then I heard a noise. It was my brother that woke up. He looked at me and said: "I want to play chess, but the table is dirty, what to do?". I showed him the chessboard, and we started playing. He was an excellent chess player, and he
