Reppan enabler If you have Photoshop on a Windows computer, you can use this nifty printer driver that makes it possible to print from your camera or other image-editing software directly to a PictBridge-enabled printer. (See Step 9 of the "Getting Ready to Print" instructions in this chapter.) On a Mac, you can use AirPrint to print from your camera or another Mac to any PictBridge printer. (See the "Getting Ready to Print" instructions in Chapter 10.) You can also connect your printer to your computer and print images directly from your computer to it. For that to work, you need to install a printer driver for your particular printer on your computer. (See this book's *Complete Photo Workflow For Dummies*, by Steven Sassatelli, to learn how to install printers.) You can use Adobe Acrobat Pro to print PDFs, or Photoshop Elements 9 to print with printouts created by Elements.
