[\*] Drag-N-Drop to Download folder Uploading... 10%  
20%, Took 39 Minutes Saving/Uploading Complete.  
Finally, you can unzip the file from the download folder.  
(The zip file we downloaded contains the files inside the  
folder, so there is no need to extract them) Read the  
Readme file included with the Zip file. After running it  
for the first time, you will be prompted to enter your  
phone number or email address to get the push  
notification feature. For BlackBerry 10 you can get a  
push notification by clicking on the View your message  
notification button in the app tray. Click on the number  
to open a phone call from the app to the phone number  
you entered. It works on all BlackBerry 10 devices with  
the default phone app and you can get the push  
notifications from anywhere you are using your  
BlackBerry 10 device. This will allow the phone app to  
work flawlessly with all your contacts. If you do not get  
the message notification, make sure you have selected  
your email/phone number in the call settings in your  
phone app. You should also be aware that the push  
notifications will get updated for your phone number

---

and email address if you have the apn and email option enabled in your BlackBerry 10 device's network settings and set the app to send messages for the email/phone number you are using.

Q: Stored Proc with parameter from user form i want to insert the parameter "username" from a userform on the aspx page as i have a stored proc which requires this parameter (ie. @username) i have tried SqlCommand

```
cmd = new SqlCommand("dbo.UpdateMember",  
connection); cmd.CommandType =  
CommandType.StoredProcedure;  
cmd.Parameters.Add(new SqlParameter("@username",  
SqlDbType.VarChar, 50));  
cmd.Parameters["@username"].Value =  
txtUsername.Text; cmd.ExecuteNonQuery();
```

the script works if I hard code the parameter in, but if i use it as shown above I get the following error. Object reference not set to an instance of an object. What am i doing wrong here? A: You need to pass in your textbox's value in to the command as the @
