This year, more than 90% of the world's data is being created by mobile devices, with smartphones and tablets being the growing force in this transformation. And while a lot of companies jump on the mobile bandwagon with custom apps, a lot of other companies choose to use their CRM software as the base for a mobile offering. The biggest reason for that, from an implementation point of view, is the fact that mobile CRM programs tend to be about as easy to implement as a mobile app is. 5ec8ef588b
