the b-3x organ is the next generation in the history of the original hammond b-3, including a new mechanical design, redesigned internals and updated components. it also adopts the most advanced sound engine system to date, featuring a powerful dsp engine for precise and accurate emulation, the ability to save and recall presets and the new option of live performance via midi, all at the highest end of our flagship products. its the new top of the line hammond organ that delivers the most authentic, flexible and realistic sounds you've ever heard. the tonewheels are each individually modeled based on careful measurements taken from a vintage hammond organ, including note response characteristics, chorusing and vibrato responses, cable characteristics, and coloration. there are also a variety of phantom-drive sub-circuits that model the compression, overdrive, feedback, rhythm, reverb, and delay effect, and you can switch between up to six of these at any time. the b-3x also includes a full analog emulation of the famous hammond chorus/vibrato circuit, including all six different types of chorusing, variable frequency response, and the legendary drawbars that are used to fine-tune the volume of each mode. the b-3x also includes the legendary hammond percussion that simulates unique and iconic sounds such as bellows, marcato, rasgueado, and semiquavers. beyond the tonewheels and percussion, b-3x simulates the exact sound of the hammonds entire set of over 100 moving drawbars, including 42 standard drawbars, 6 x 9 drawbars, 6 x 12 drawbars, 8 x 12 drawbars, and a set of complementary drawbars that affect tonal flexibility. all of this is powered by ten fully-configurable synth oscillators that create the massive, organic sound of the b-3x and a complete set of analog modeling synthesizers, including a classic hammond filter, amplifier, chorus/vibrato, and reverb. hammond b-3x also includes five separate sets of analog-modeled filters that allow you to tune the b-3x from anything from classic, warm bass and midrange to dark, lush and super-fat highs, or anything in between!
